

45 COMPONENTS · 7 FUNCTION FAMILIES

Lattice Component Gallery

Every `example.md` in lib/components/, rendered.

SECTION 01 · 4 COMPONENTS

Anchor

Closing takeaway or call to action

Optional eyebrow

SECTION 01

Section name

TOPIC FAMILY

Sub-topic name.

CATEGORY · DATE OR AUDIENCE

Deck title goes here

One-line subtitle that frames the deck.

SECTION 02 · 4 COMPONENTS

Statement

OPTIONAL EYEBROW

92%

of the audience remembers a single number from a deck.

Slide heading.

The explanatory paragraph that develops the heading goes here. Keep the slide under forty words.

Optional supporting point one.

Optional supporting point two.

“

*The quoted sentence sits here, kept short enough to read in one
breath.*

”

Attribution — Person, Role

P

SECTION RUBRIC

First point.

Supporting sentence explaining the first point.

Second point.

Supporting sentence explaining the second point.

Third point.

Supporting sentence explaining the third point.

Panel headline that frames the side points.

Featured panel + list · split-panel

SECTION 03 · 12 COMPONENTS

Inventory

Who owns each part of the process.

First actor.	Owns the first part of the lifecycle.
Second actor.	Owns the second part.
Third actor.	Owns the third part.
Fourth actor.	Owns the fourth part.

What this deck covers.

01	First section title
02	Second section title
03	Third section title
04	Fourth section title

Slide heading.

First card title.

Body text for the first card, one sentence.

Second card title.

Body text for the second card, one sentence.

Third card title.

Body text for the third card, one sentence.

Fourth card title.

Body text for the fourth card, one sentence.

Slide heading.

Left card title.

Body text for the left card, two short sentences.

Right card title.

Body text for the right card, two short sentences.

Slide heading.

First card title. Body text for the first stacked card, two short sentences max.

Second card title. Body text for the second stacked card.

Third card title. Body text for the third stacked card.

Slide heading.

First row title. Body text for the first wide row, one or two sentences.

Second row title. Body text for the second wide row.

Third row title. Body text for the third wide row.

Pre-launch readiness.

- First item that is fully done.
- Second item that is fully done.
- Third item that is partially complete with a caveat.
- Fourth item that is not yet started.

Glossary

A - C

TERM	DEFINITION
Adjacency	The relationship between two slides that share an audience or context.
Anchor	A title, divider, subtopic, or closing slide that orients the audience.
Cadence	The deck's pacing — how much new information per slide.

Slide heading.

First short bullet point.

Second short bullet point.

Third short bullet point.

Fourth short bullet point.

Fifth short bullet point.

Slide heading.

First entry. Description or value for the first entry.

Second entry. Description or value for the second entry.

Third entry. Description or value for the third entry.

Fourth entry. Description or value for the fourth entry.

How we make calls when the spec is silent.

Bias to action. Default to shipping a defensible answer over chasing a perfect one.

Decisions over options. Document the choice, not the menu we evaluated.

Cheaper to reverse than to debate. Reversible calls don't need a meeting.

What this section showed.

The first takeaway as a complete one-line claim.

The second takeaway as a complete one-line claim.

The third takeaway as a complete one-line claim.

The fourth takeaway as a complete one-line claim.

SECTION 04 · 7 COMPONENTS

Comparison

What the change did.

BEFORE.

How the system or process worked before the change, in one or two sentences.

AFTER.

How the system or process works now, in one or two sentences.

Heading framing the comparison.

BEFORE

```
function before() {  
  return 'old';  
}
```

AFTER

```
function after() {  
  return 'new';  
}
```

Heading framing the comparison.

FIRST OPTION.

**Two-sentence description of the first option,
including the strongest argument for it.**

SECOND OPTION.

**Two-sentence description of the second option,
including the strongest argument for it.**

Heading framing the comparison.

CRITERION	OPTION A	OPTION B	OPTION C
First criterion	Value	Value	Value
Second criterion	Value	Value	Value
Third criterion	Value	Value	Value

What we are doing.

CHOSEN PATH.

One-line rationale for the decision.

REJECTED OPTION.

One-line rationale for why this didn't fit.

Where each option lives.

High value · Low cost.

First item in this quadrant
Second item

High value · High cost.

First item in this quadrant

Low value · Low cost.

First item in this quadrant

Low value · High cost.

First item in this quadrant

Which option meets the criteria.

First option.

- ☒ First criterion
- ☐ Second criterion
- ☐ Third criterion

Second option.

- ☒ First criterion
- ☒ Second criterion
- ☐ Third criterion

Third option.

- ☐ First criterion
- ☐ Second criterion
- ☒ Third criterion

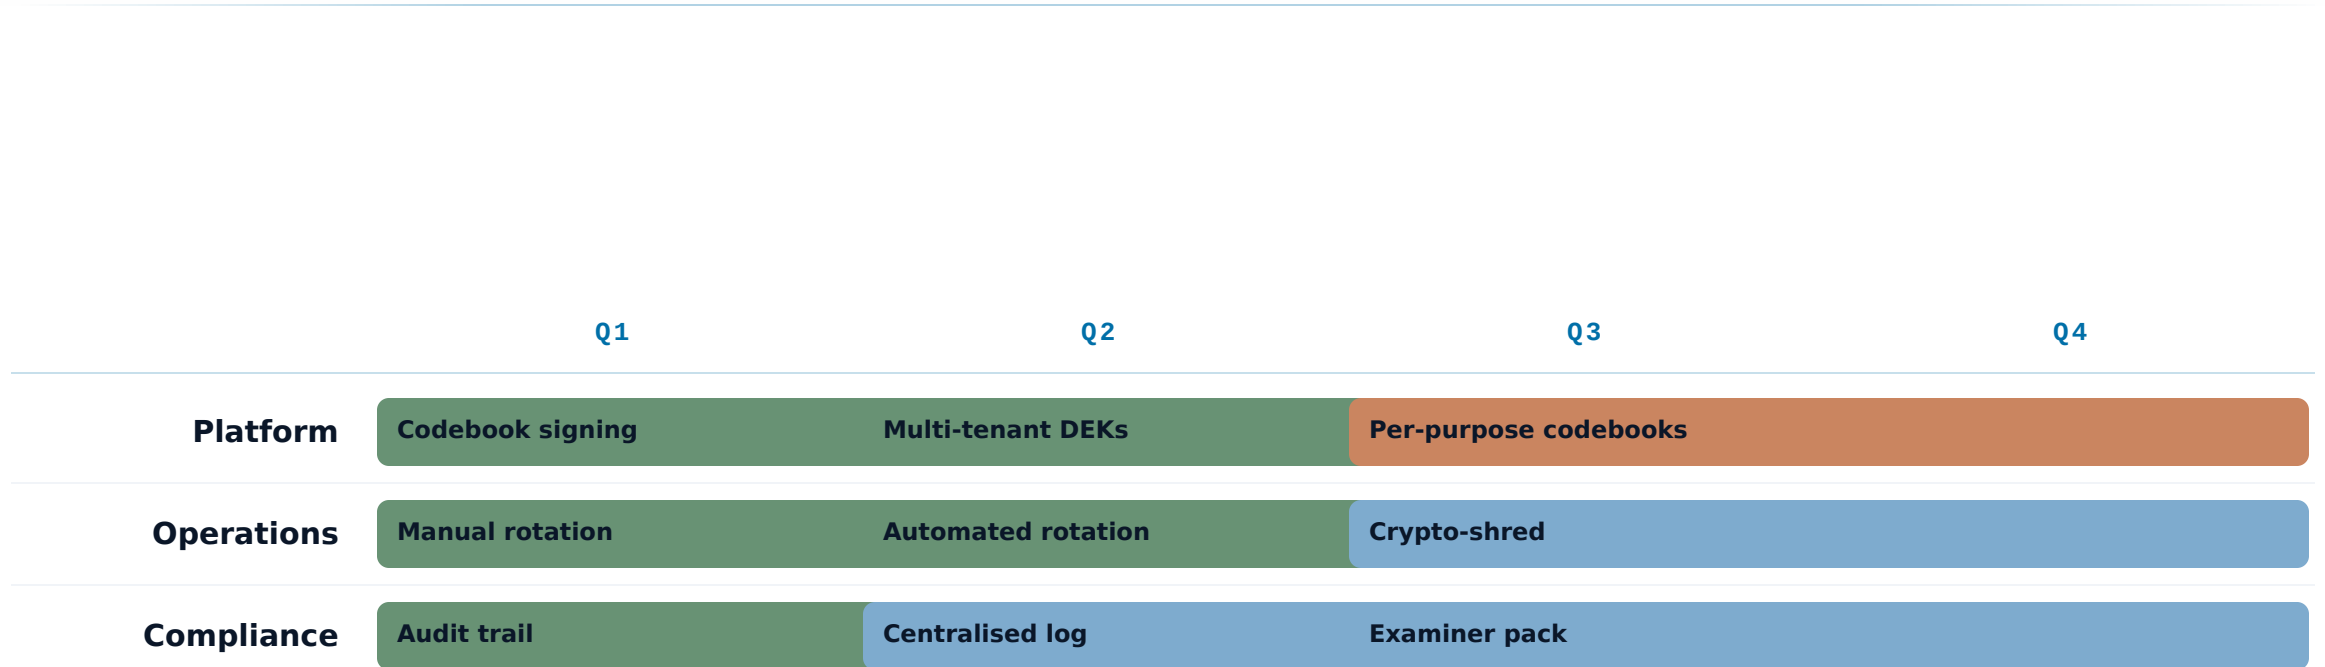

SECTION 05 · 6 COMPONENTS

Progression

2026 Q1 → 2026 Q4

What ships in each phase, by workstream.

Three workstreams across four quarters. Status pills tint each bar.

Where Phase 2 work stands today.

Four columns, mixed card density. Size badge sits in the title row.

What every decision must satisfy.

01 First criterion.
Short rationale for why this matters.

02 Second criterion.
Short rationale.

03 Third criterion.
Short rationale.

04 Fourth criterion.
Short rationale.

How to roll this out.

STEP 01

First step — a sentence describing what you do here.

STEP 02

Second step — a sentence describing what you do here.

STEP 03

Third step — a sentence describing what you do here.

STEP 04

Fourth step — a sentence describing what you do here.

What ships in each phase, by workstream.

WORKSTREAM	FOUNDATION	HARDENING	SCALE
	Q2 2026	Q3 2026	Q4 2026
Platform	✓ Codebook signing	🛩 Multi-tenant DEKs	○ Per-purpose codebooks
Operations	✓ Manual rotation	🛩 Automated rotation	○ Crypto-shred
Compliance	✓ Audit trail	✓ Centralised log	○ Examiner pack
SDK	✓ Java	🛩 .NET	○ Polyglot parity

State markers `[x]/[-]/[ ]/[/]` are universal: ✓ shipped, 🛩 in flight, ○ planned, / out of scope.

How the process flows.

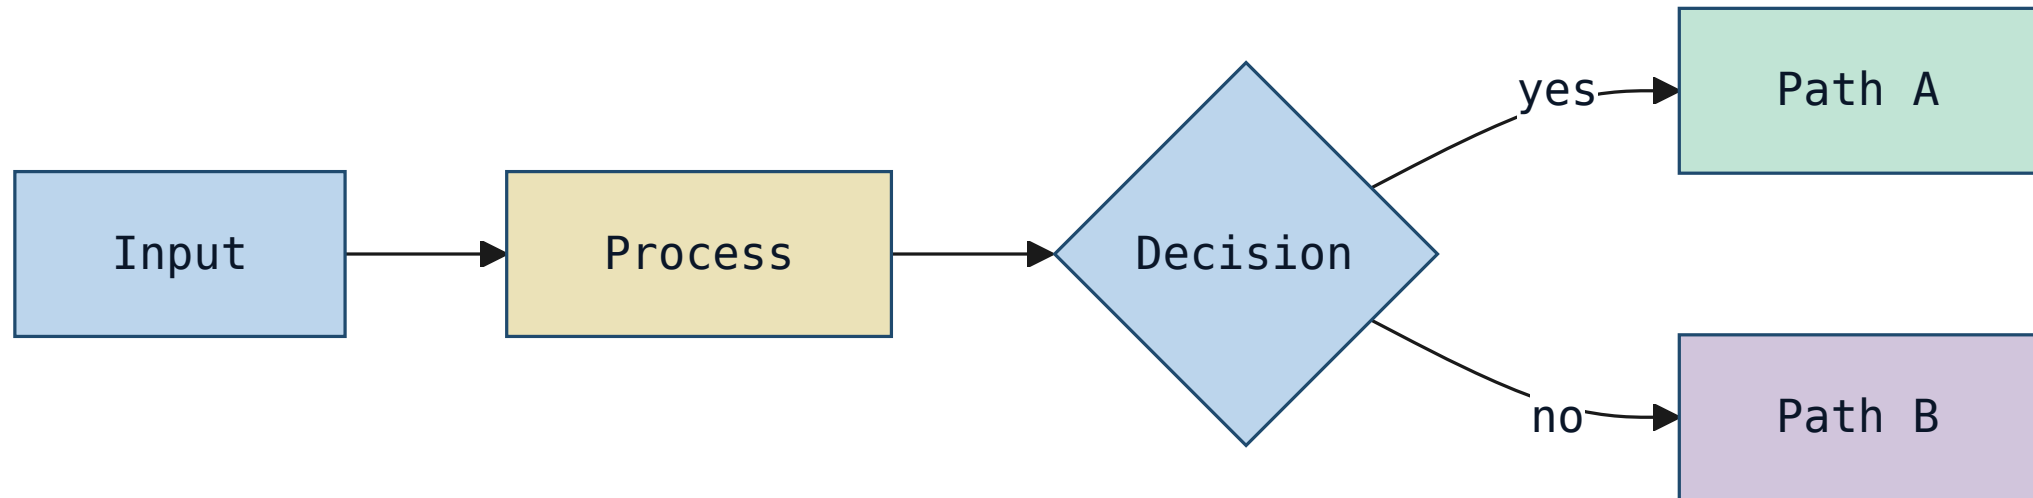

SECTION 06 · 10 COMPONENTS

Evidence

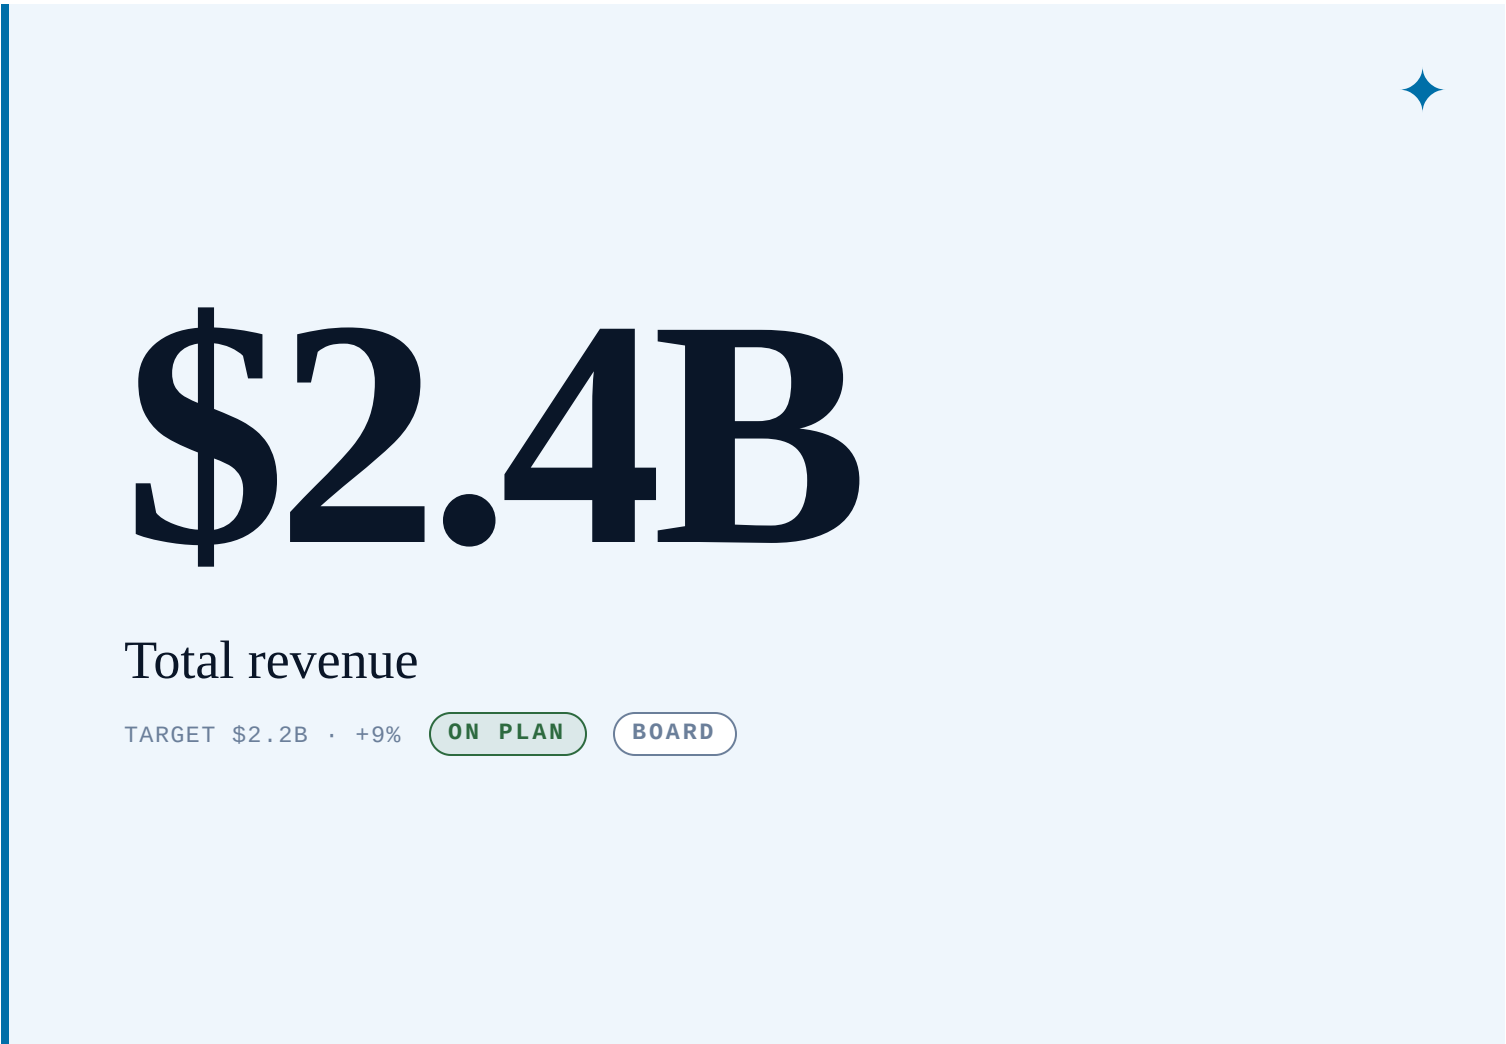

What the new endpoint looks like.

```
app.post('/api/v2/auth', async (req, res) => {  
  const session = await issueSession(req.body);  
  res.json({ session });  
});
```

How signals move from input to decision.

Revenue ahead of plan; margin and cash both expanded.

+\$180M QOQ **ON PLAN** INVESTOR

H1 2026 · 1,840 PERSON-HOURS

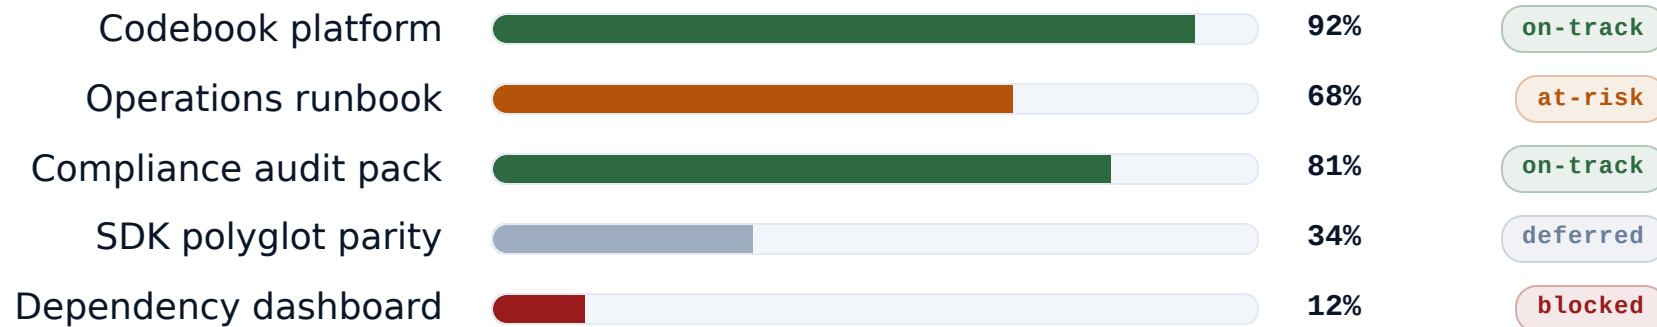

Where the engineering quarter went.

Wedges drawn proportionally; legend reads in author order with raw values.

Phase 1 readiness, by workstream.

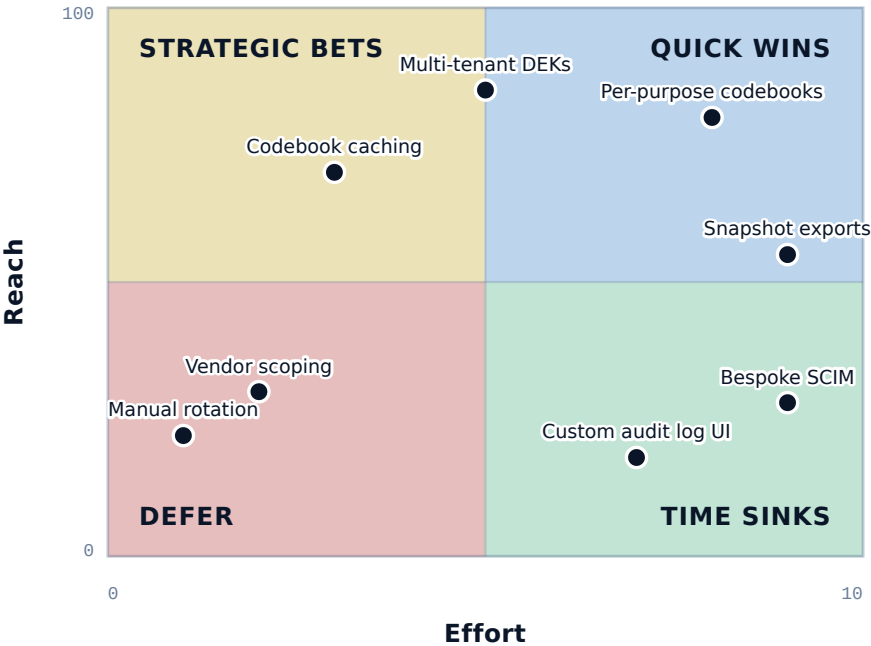

Snapshot taken at 14:00 UTC. Status pills tint the bar fill.

EFFORT 0-10 → REACH 0-100

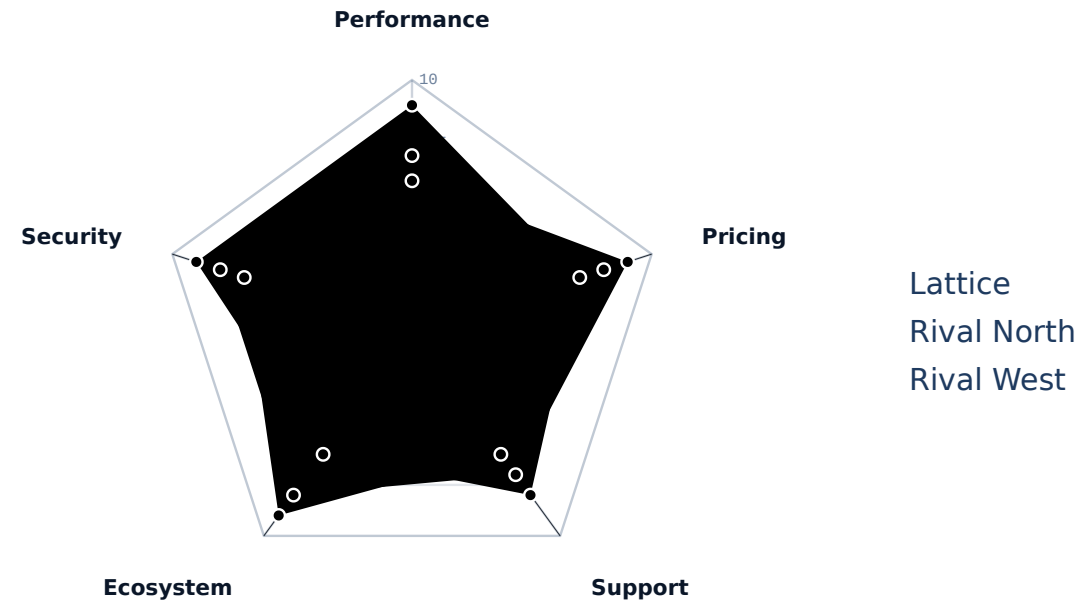

Where to put the next dollar.

Effort estimated in story-points; reach as percent of addressable users.

SCALE · 0-10

How we stack up across the buying criteria.

IMPACT · PILOT RESULTS

Six months of results across four product teams.

Measured against pre-framework baseline, same teams, same market conditions.

73%

FASTER CLOSE

4.2×

SIGNAL RECALL

\$1.2M

PREVENTED LOSSES

−18d

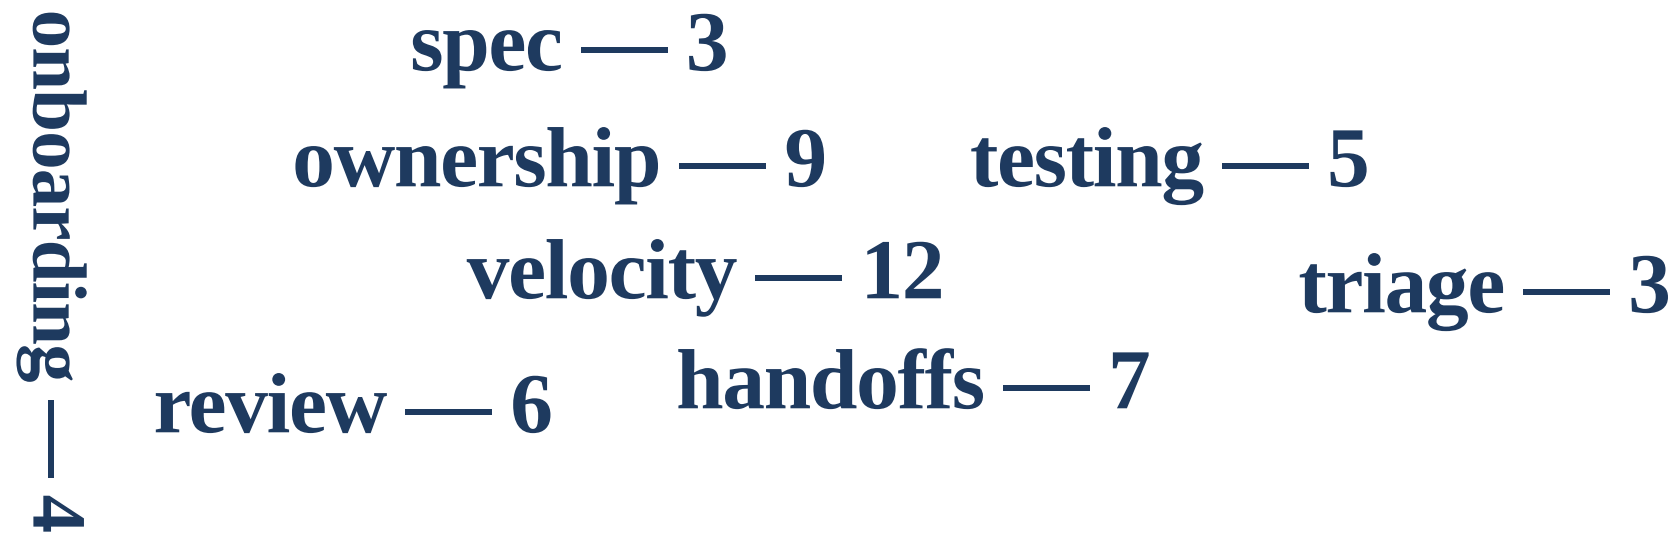

AVG CYCLE TIME

How the codebook architecture arrived in production.

Four stages over eighteen months. Date pill leads each item; status pill trails.

What the team called out this quarter.

SECTION 07 · 2 COMPONENTS

Imagery

Applying the criteria, here is where the evidence points.

Featured recommendation.

One to two sentences making the case.

Supporting card.

Short context on a related option.

Supporting card.

Short context on another option.

Supporting card.

Short context on another option.

Image right is the default — text leads, evidence follows.

Replace the bg image below with your own asset. The image fills its half-canvas slot edge-to-edge; a 1px hairline marks the join between text and image.

That is every component.
