# chart

Chart — series-substance data visualizations (SVG kernel).

2026 Q1 → 2026 Q4

# What ships in each phase, by workstream.

*Three workstreams across four quarters. Status pills tint each bar.*

|            | Q1               | Q2                 | Q3                    | Q4 |
|------------|------------------|--------------------|-----------------------|----|
| Platform   | Codebook signing | Multi-tenant DEKs  | Per-purpose codebooks |    |
| Operations | Manual rotation  | Automated rotation | Crypto-shred          |    |
| Compliance | Audit trail      | Centralised log    | Examiner pack         |    |

# Where Phase 2 work stands today.

*Four columns, mixed card density. Size badge sits in the title row.*

| BACKLOG                                                                      | IN PROGRESS                                                                   | REVIEW                                                                 | DONE                                                                   |

H1 2026 · 1,840 PERSON-HOURS

# Where the engineering quarter went.

*Wedges drawn proportionally; legend reads in author order with raw values.*

# Phase 1 readiness, by workstream.

*Snapshot taken at 14:00 UTC. Status pills tint the bar fill.*

**EFFORT 0-10 → REACH 0-100**

# Where to put the next dollar.

*Effort estimated in story-points; reach as percent of addressable users.*

SCALE · 0-10

# How we stack up across the buying criteria.

## CODEBOOK ARCHITECTURE

# How the codebook architecture arrived in production.

*Four stages over eighteen months. Date pill leads each item; status pill trails.*
