When NOT to reach for kpi.

pill status

KPI's row position within the modifier — the engine never reads the pill text — semantics.

On plan, At risk, Breaching, Compliant, Remediating

land a colour that has nothing

More than four KPIs in attention or spotlight.

attention

metric that needs the room;

spotlight

KPIs the visual hierarchy collapses — split into two slides.

monumentalises one number. Past four

No targets, no trends.

If the KPIs carry only current values, the slide is a stats row, not a kpi dashboard. Use stats and reclaim the room.
