

INVENTORY • LEDGER • STRUCTURE

list-tabular

Hairline-ruled ledger of items — name on the left, body on the right.

The tabular list rules rows into a register.

01	Rows	Label, clause, optional meta line.	TWELVE SOFT · SIXTEEN HARD
02	Looks	Eight named looks reskin the rows.	DEF · SPEC · REGISTER
03	Escalation	Long content leaves for a table.	SPLIT PAST SEVEN ROWS

def pairs each term with its role.

01	TERM	
	Label	def styles the register as definitions.
02	ROLE	
	Chip	The inline code becomes a right-hand chip.
03	CLAUSE	
	Body	One clause under each term.

metric turns the chips into figures.

01	Rows carry values	12 / 16
02	Figures right-align	100%
03	Labels stay short	4 rows

spec documents flags and their types.

01	LATTICE_THEME	spec sets code labels beside type chips.	STRING
02	LATTICE_DEBUG	One clause explains each flag.	BOOL

register pairs names with status chips.

01	cards-grid	STABLE
02	split-panel	STABLE
03	radar	BETA
04	word-cloud	PREVIEW

rule draws a hairline under every row.

ON
01 **Hairlines**

rule adds the horizontal separators.

SAME
02 **Density**

Budgets do not change with the look.

solid fills the register with panel color.

01	Net new rows	4
02	Panel fill	on
03	Best for	headline metrics

stacked drops the clause under its label.

01	GET /PLANS/:NAME	200 404
	stacked gives each row two decks of text.	
02	GET /GALLERY/:NAME	200
	The clause wraps below, full width.	

outline boxes each row in a keyline.

01	cards-grid	STABLE
02	split-panel	STABLE
03	quote	STABLE

Seven rows is the register's practical page.

01	title	STABLE
02	big-number	STABLE
03	cards-grid	STABLE
04	split-panel	STABLE
05	funnel	STABLE
06	map	STABLE
07	radar	BETA

The tabular list rules rows into a register.

02	Looks	Eight named looks reskin the rows.	DEF · SPEC · REGISTER
03	Escalation	Long content leaves for a table.	SPLIT PAST SEVEN ROWS

When NOT to reach for list-tabular.

Three or fewer rows

The ledger needs density to justify its shape. For two to four items, reach for cards-stack — the rows get the room to breathe.

Long per-row prose

Each row is a name plus a sentence. If the description runs two or three sentences, move to cards-stack or split across slides.

Stacking two primary variants

`def`, `metric`, `spec`, and `register` are mutually exclusive. Pair each only with its secondary modifier (def+rule, metric+solid, spec+stacked, register+outline).

RELATED COMPONENTS

See also.

`glossary` — term/definition pairs with auto-derived range pill

`cards-stack` — two or three richer items, not a ledger

`actors` — the left column is a named person, not a key

`list` — rows are bullets without a label-plus-description
shape
