kanban

Kanban board — columns of cards by stage.

Where Phase 2 work stands today.

Four columns, mixed card density. Size badge sits in the title row.

When NOT to reach for kanban.

Schedule, not status. If the question is when each task ships rather than where it sits today, reach for `gantt` (spans) or `roadmap` (phases). Kanban is a snapshot, not a timeline.

More than five lanes. Past five columns the cards compress and the column headers crowd. Group adjacent stages or split into two boards (e.g. by team) instead.

Cards without meta. A board of bare titles wastes the layout's affordances. Add at least a size badge and a lane label so the audience can scan workload and ownership at a glance.

See also.

RELATED COMPONENTS

- `gantt` — schedule of overlapping tasks across lanes, not current state
- `roadmap` — phased grid of deliverables across workstreams
- `checklist` — single list of items with done/in-flight/planned states
- `verdict-grid` — options scored against shared criteria, not stage-tracked
