faq

Frequently-asked questions laid out in five spatial forms — ledger, card grid, split panel, indexed stack, or statement focus.

Due Diligence Q&A

What is the current ARR?

\$12.4M ARR growing 85% year-over-year for four consecutive quarters.

What is the net revenue retention?

118% NRR; logo churn is below 3% annually across all cohorts.

Who are the top five customers?

Combined, the top five represent 28% of ARR and are all on multi-year contracts.

What are the key risks?

Single cloud-provider dependency. Mitigation roadmap is detailed in the appendix.

Frequently Asked Questions

What is the onboarding timeline?	New hires complete all paperwork and training within their first 30 days.
How does the expense policy work?	Up to \$150 without pre-approval; over \$150 requires a receipt and manager sign-off in Expensify.
Where is the engineering handbook?	Notion → Engineering Hub → Handbook. Your manager shares the link on day one.
Who handles benefits questions?	People Ops owns benefits. DM @hr-team in Slack or book a 15-minute slot via Calendly.

Frequently Asked Questions

Does the platform support SSO?

Yes. SAML 2.0 and OIDC are supported out of the box; SCIM provisioning is available on Enterprise.

Is there a free trial?

All plans include a 14-day free trial with no credit card required.

What is the uptime SLA?

99.9% uptime on Growth and above, with 24-hour incident response on Enterprise.

Can we export our data?

Full export in JSON and CSV within 48 hours of any request or cancellation.

Top Questions, Answered

01

What is our go-to-market strategy?

We sell direct to enterprise accounts over \$500K ARR via a 90-day land-and-expand motion.

02

Who are our reference customers?

We have ten public referenceable logos across finance, healthcare, and logistics.

03

When do we expect profitability?

Contribution-margin positive in Q3 at current growth; cash-flow positive in 18 months.

Is this genuinely enterprise-grade?

Every one of our 400 enterprise customers runs mission-critical workloads on the platform — with a 99.97% uptime SLA backed by contractual guarantees, not marketing language.

When NOT to reach for faq.

Inline question-answer on one bullet. Do not write `- <strong>Question?</strong> Answer here.` — the answer inherits bold weight and runs into the question. Use the nested format: `- Question? \n - Answer.`

Multi-sentence answers in ledger or indexed. One sentence per answer on the ledger and indexed variants. If an answer needs two sentences, the question deserves its own slide or use `faq.focused`.

Using `faq.focused` for multiple questions. `faq.focused` is a statement layout — one question per slide. If you have several to handle, use `faq.cards` or `faq.indexed`.

RELATED COMPONENTS

- `glossary` — term/definition format rather than question/answer
- `split-list` — thesis in a dark panel + supporting points, not Q&A
- `checklist` — items need pass/partial/fail status markers
- `cards-stack` — items are parallel descriptions, not Q&A pairs
