

COMPARISON • LEDGER • PROSE

compare-table

Multi-row comparison table with consistent columns.

How the three planning rituals compare.

RITUAL	CADENCE	OUTPUT	READ AFTER THE MEETING
Strategy offsite	Yearly	An 80-slide deck	The title slide
Quarterly business review	Quarterly	A scorecard	The red cells
Weekly signal review	Weekly	A decision-log entry	Whoever wrote it

When NOT to reach for compare-table.

Cells full of prose.

Long sentences in a table cell wrap awkwardly and force the column wider. Move to

verdict-grid

for criteria with body text, or cards-stack for full prose rows.

More than 6 rows.

Past 6 rows the table density crowds the slide. Split into two slides or summarise the rows that don't differentiate.

State-marker rows.

When most cells are pass/fail/partial badges, the right layout is

obligation-matrix

or

verdict-grid

. compare-table is for textual values.

RELATED COMPONENTS

See also.

`compare-prose` — exactly two options with prose bodies

`verdict-grid` — options scored against criteria with pass/partial/fail badges

`obligation-matrix` — many regimes compared against shared obligations

`cards-stack` — each row needs full-prose breathing room rather than a tabular cell
