

9 COMPONENTS

chart

Chart — series-substance data visualizations (SVG kernel).

2026 Q1 → 2026 Q4

What ships in each phase, by workstream.

Three workstreams across four quarters; the one at-risk bar quietly gates the entire rollout.

	Q1	Q2	Q3	Q4
Framework	Signal taxonomy	Scoring model v2	Per-team weighting	
Adoption	Pilot onboarding	Weekly signal review	Org-wide rollout	
Governance	Decision log	Calibration cadence	Board reporting	

Where Phase 2 work stands today.

Eight items across four stages; the scoring-model rewrite is the only card flagged at-risk, which is the polite way of saying it is the only one anyone has looked at.

H1 2026 · 1,840 PERSON-HOURS

Where the planning quarter actually went.

Nearly half went to producing decks; the deciding itself was the smallest slice.

Phase 1 readiness, by workstream.

Snapshot at 14:00 UTC. Status pills reflect the most optimistic reading of the available data.

EFFORT 0-10 → REACH 0-100

Where to put the next quarter, before someone reorganises the teams again.

Effort in analyst-weeks; reach as the percent of teams that would adopt it, optimistically.

SCALE · 0-10

How we stack up across the buying criteria.

SUBMISSION LIFECYCLE

Document approval flow.

How a draft moves from author to publication.

Rejected drafts return to the author; revisions stay in review.

DECISION FRAMEWORK

How the framework arrived in production.

Four stages over eighteen months, from the first workshop to the operating rhythm.

What 38 win/loss interviews kept saying, by frequency.

A word cloud on a dark blue background. The words are arranged in a circular pattern around the central phrase 'time-to-value'. The words are color-coded: 'onboarding' is green, 'pricing' is purple, 'roadmap' is dark blue, 'contracts' and 'residency' are light blue, 'security' is orange, 'integrations' is teal, and 'support' is red. The font size of each word indicates its frequency.
