

SPIKE · PIECHART · 2026-06-13

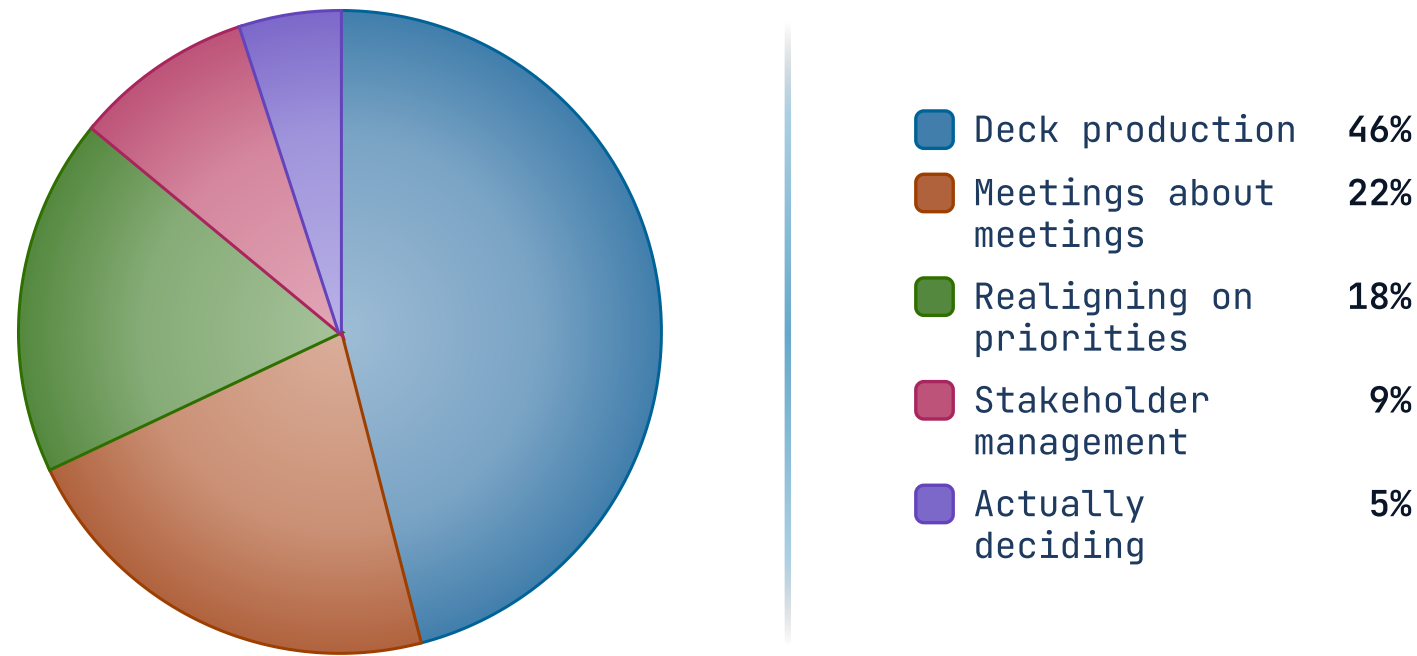

The pie, its key, and its divider — one SVG.

The diagram, the gradient spine, and the legend now share a single viewBox,
so the whole chart scales as one proportional unit.

H1 2026 · 1,840 PERSON-HOURS

Where the planning quarter actually went.

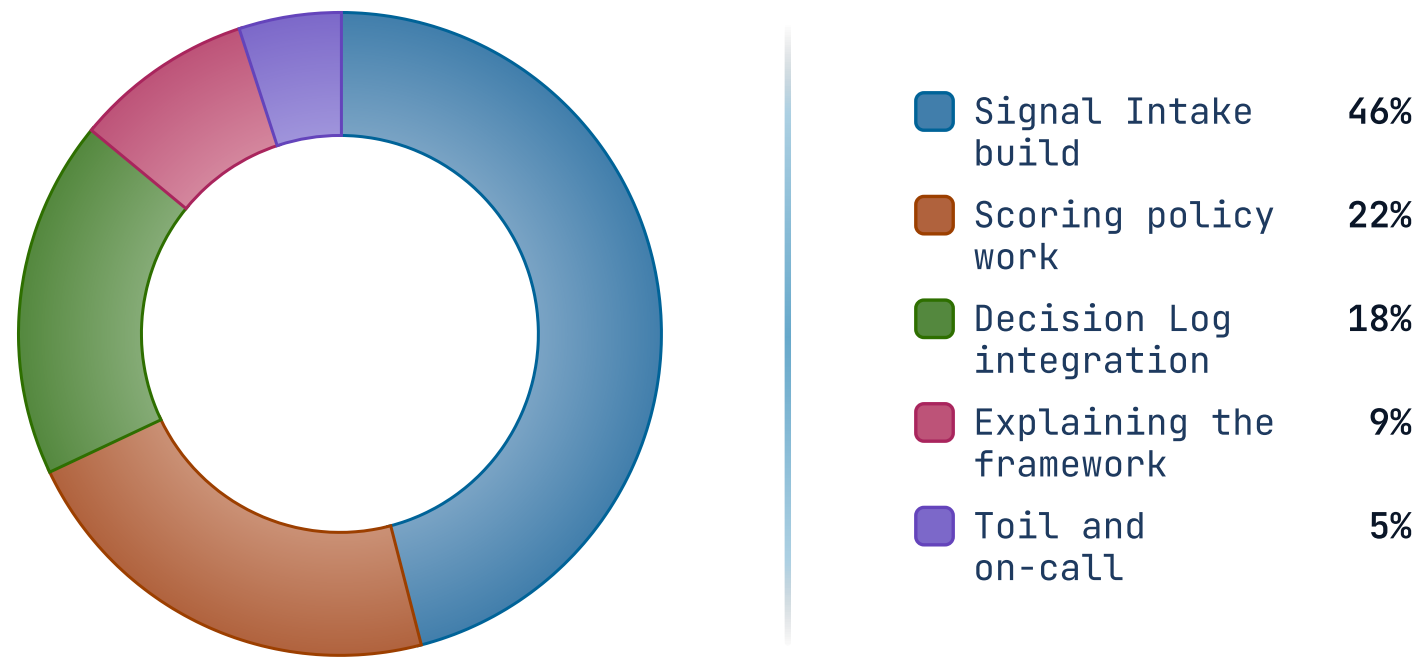

The key scales with the diagram; the spine floats in a comfortable gap.

H1 2026 · 1,840 PERSON-HOURS

The engineering quarter, as a donut.

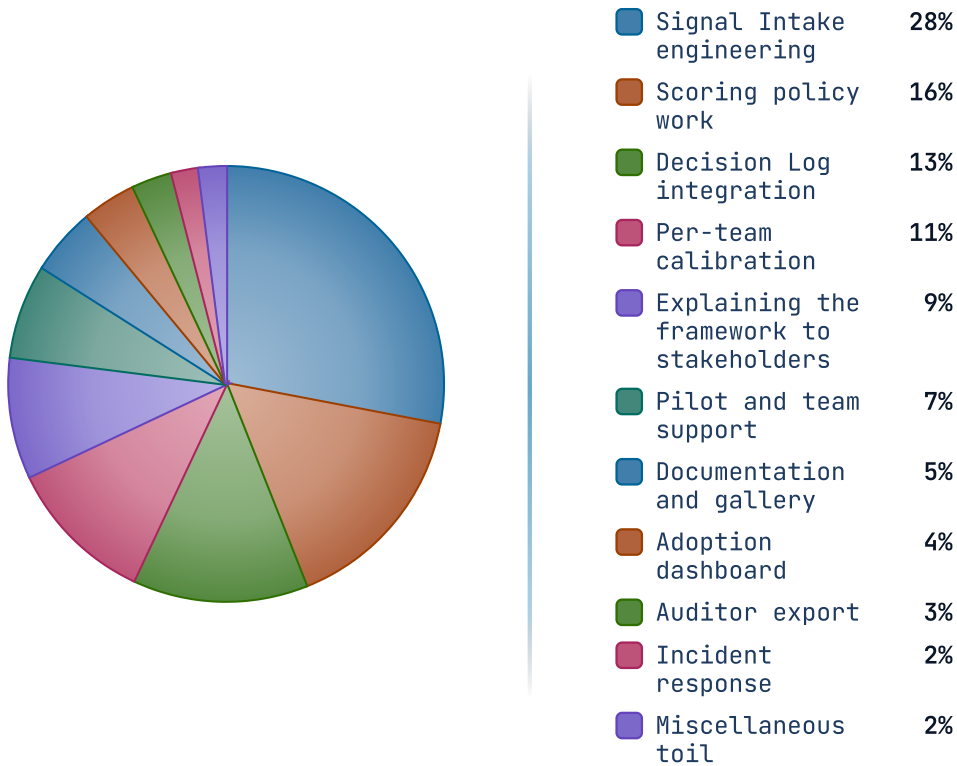

Wedges, spine and key are all emitted in viewBox units.

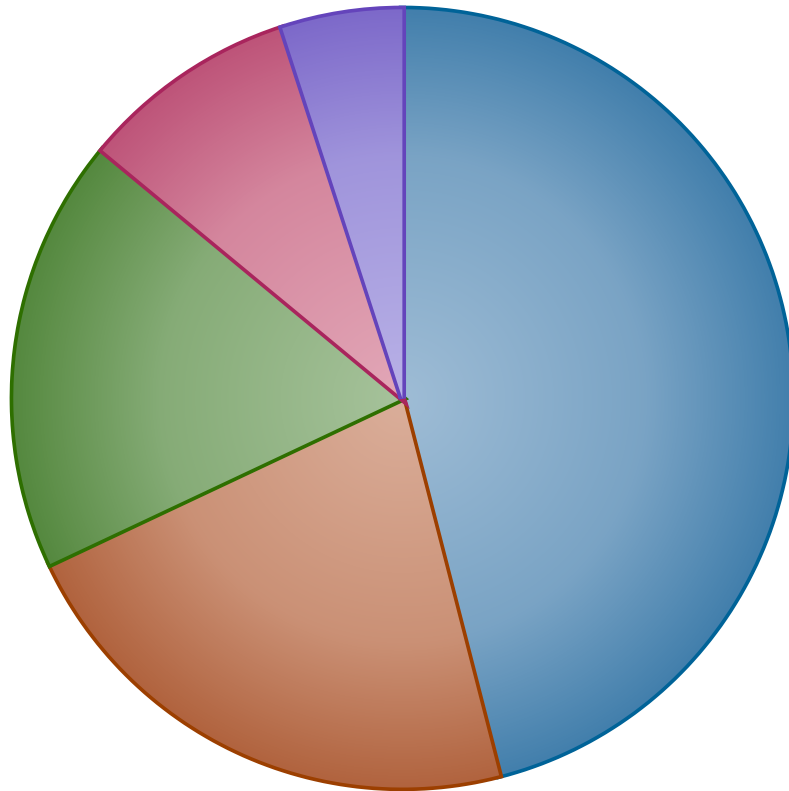

FY2026 • THE LONG TAIL

Eleven slices still fit — the legend scales itself down.

No clipping: the font shrinks just enough to seat every keyed row.

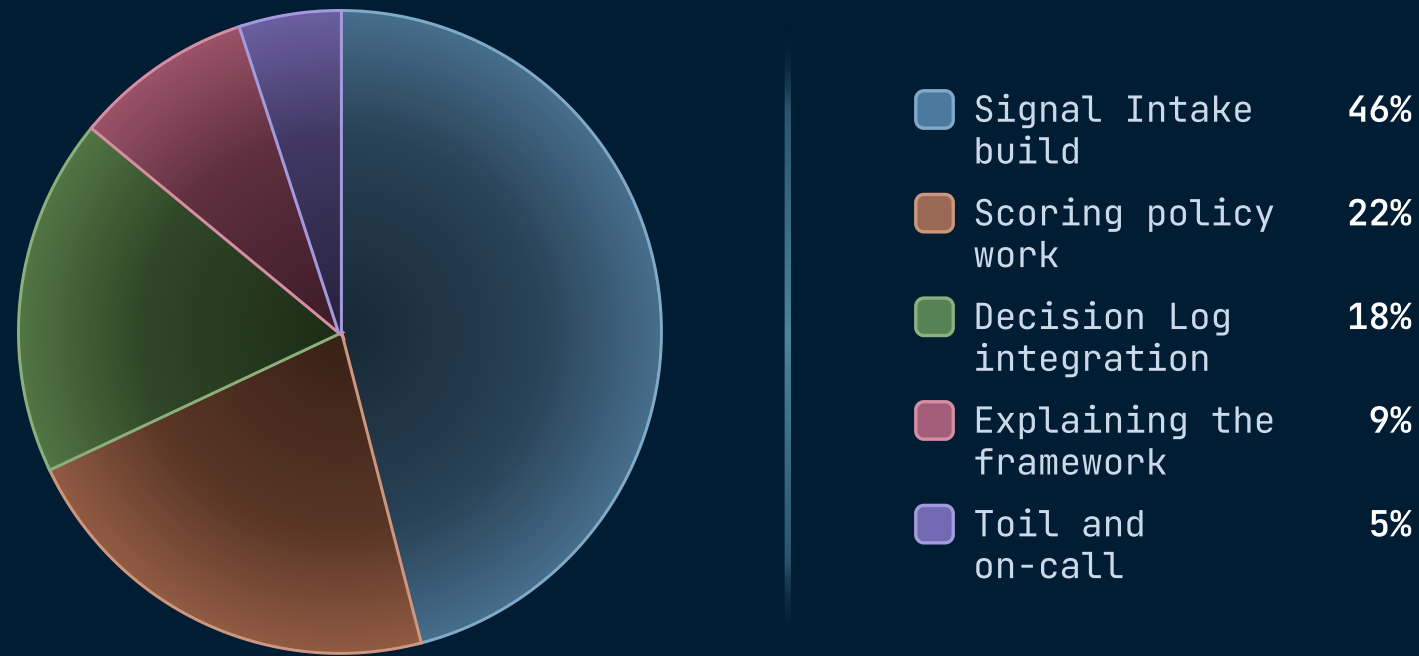

Deck production	46%
Meetings about meetings	22%
Realigning on priorities	18%
Stakeholder management	9%
Actually deciding	5%

Where the planning quarter actually went.

Spine, swatches, labels — all token-driven.

Every colour flips with the canvas; nothing is a baked literal.

PIECHART · SVG-NATIVE LEGEND

One viewBox, and it travels.

Proportional at any size, self-contained for export, and still
palette-blind and sketch-aware — the foundation the other keyed charts
graduate onto next.
