

6 COMPONENTS

statement

Statement — one declarative claim per slide.

AUDIENCE RECALL

92%

of the audience remembers a single number from a deck.
Make it count.

The catch-all prose slide.

Use *CONTENT* when no more specific component fits. A heading, a paragraph, optionally a short bullet list. Keep the slide under forty words.

For lists of items, prefer `list`, `cards-grid`, or `cards-stack`.

For comparisons, prefer `compare-prose` or `compare-table`.

For single metrics, prefer `big-number` or `stats`.

“

The signal was always there. We just didn't have a system that forced us to look at it before we'd already decided.

”

— Head of Product, Pilot Team 3

Q2 PERFORMANCE REVIEW

Enterprise revenue stalled in Q2.

Three structural factors explain 90% of the shortfall — all addressable before Q4 close.

Renewal pricing complexity is driving churn at the segment ceiling.

Four accounts totaling \$2.1M ARR declined renewal. Win/loss interviews point to a quote-to-contract gap, not value perception.

Pipeline conversion dropped 11 pp below Q1 — legal review is the chokepoint.

Contract length increased 18 days on average. Root cause is a security addendum introduced in March.

Competitive displacement accelerated in the \$80-200K ACV tier.

Seven losses to a single competitor. Time-to-value gap is the exposure.

A featured statement on the left lands the argument.

Use when

One claim deserves emphasis

The panel headline carries the weight; the right side substantiates.

You need both a thesis and proof

Statement on the left, evidence list on the right.

The right side is short

Three to four supporting points; longer lists belong in cards-stack.

The mirror modifier flips it

Image-style decks often want the panel

The best product does not win. The most understood product does.

Morgan Chase · Head of Product,
Vercel, 2024

Clarity is a product decision, not a marketing one.

If a prospect cannot articulate our value in one sentence, the product has a communication architecture problem.

Onboarding is the product's first argument for itself.

The moment a user first succeeds defines their frame for everything that follows.

Understanding, not delight, is the retention driver at scale.

Users who understand the system's logic stay through
