

LATTICE • BACKDROP CLEARANCE

LATTICE • BACKDROP CLEARANCE

The finish still frames the slide.

The atrium wash, grid, and left rule read at the edges. They step back where the body sits, so nothing competes with the message.

LATTICE • BACKDROP CLEARANCE

One deck-wide toggle.

`backdrop.clearance` is opt-in and composes with `backdrop.strength` — dim the finish and clear it behind content. Set it in front matter or the Deck-setup drawer.
